

Ricoh IM C4500

Outstanding 45-ppm Color Copier MFP

The Ricoh IM C4500, chosen by Buyers Lab analysts as the winner of the Winter 2019 Pick award for Outstanding 45-ppm Color Copier MFP, offers...

- Flawless reliability and easily replaceable components to minimize downtime
- New Ricoh Smart Integration to streamline work processes
- Proactive device management via Ricoh's Always Current Technology to maximize uptime
- High-quality printed and copied output to meet general office and marketing needs
- Ricoh Intelligent Scanning, a Winter 2019 BLI Outstanding Achievement in Innovation winner

“The Ricoh IM C4500’s user experience is top-notch, thanks to a highly intuitive Android-based touchscreen that offers user-by-user customization,” said Keypoint Intelligence’s George Mikolay, Associate Director of Copiers/Production. “Plus, Ricoh Smart Integration means tight integration with Ricoh and third-party software solutions right at the control panel to not only simplify everyday tasks but to boost productivity and efficiency, too. Users are assured of the latest functionality, apps, and bug fixes without delay via Ricoh’s Always Current Technology, which notifies users from the control panel when a chargeable or non-chargeable set of apps become available. Robust scan features expedite daily scan tasks, while an easy-to-use driver and web utility simplify operation for both users and administrators.”

“The Ricoh IM C4500’s reliability was stellar, as not a single misfeed occurred over its 200,000-impression durability test,” said Joe Ellerman, Keypoint Intelligence’s Manager of U.S. Lab Operations. “In fact, the likelihood of misfeeds is reduced even further with incorrect media size prevention. If a media mismatch is detected, the sheet of paper feeds out to the internal tray and the user is notified at the control panel.

And thanks to Ricoh Intelligent Support, which provides pre-emptive service support and predictive maintenance, and easily replaceable components, users are sure to maximize uptime on a daily basis.”

About Keypoint Intelligence - Buyers Lab

Keypoint Intelligence is a one-stop shop for the digital imaging industry. With our unparalleled tools and unmatched depth of knowledge, we cut through the noise of data to offer clients the unbiased insights and responsive tools they need in those mission-critical moments that define their products and empower their sales.

For over 50 years, Buyers Lab has been the global document imaging industry’s resource for unbiased and reliable information, test data, and competitive selling tools. What started out as a consumer-based publication about office equipment has become an all-encompassing industry resource. In a landscape that’s ever evolving, we change with it.

About Buyers Lab Pick Awards

Buyers Lab Picks stand alone in the industry and are hard-earned awards, as they are based on rigorous testing, including an extensive durability assessment and evaluation of key attributes such as usability, image quality, and value. Each product that passes our lab test earns Buyers Lab’s Recommended or Highly Recommended seal and our Certificate of Reliability, with the best performers qualifying as Pick contenders.
